

MR. ROBOT

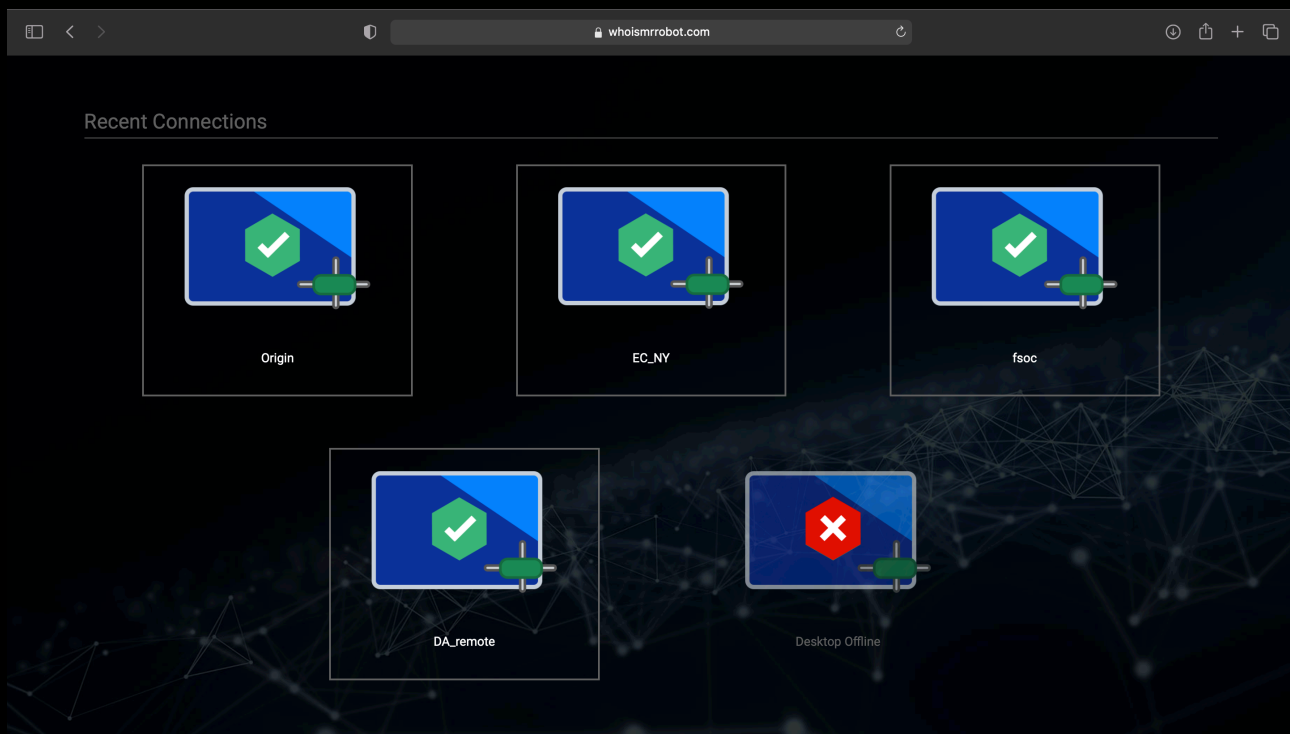

1. This challenge is asking to download the the QRcode and scan it, also to note there's a way to get onto an evilcorp website and the flag is the colour of the wheel barrow in the ad.

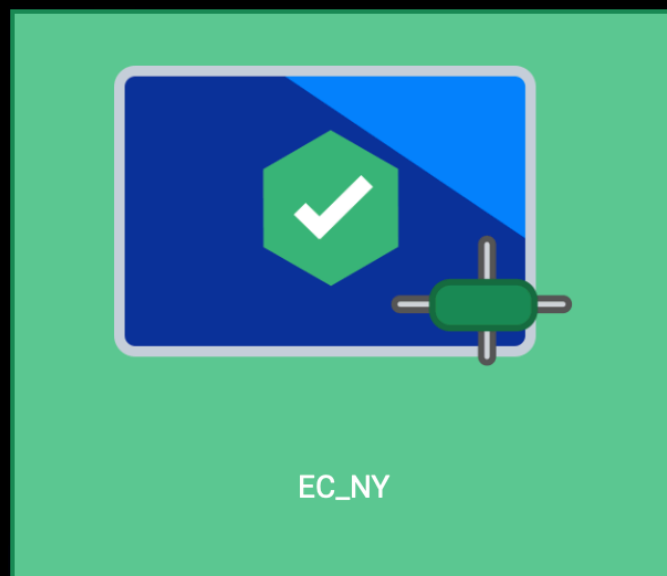

2. Below shows what the QRcode looks like.

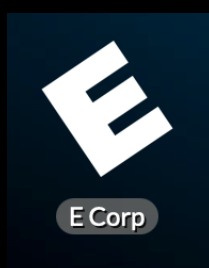

2. The QRcode goes to a website called whoismrrobot.com and as shown below there are 5 connections.

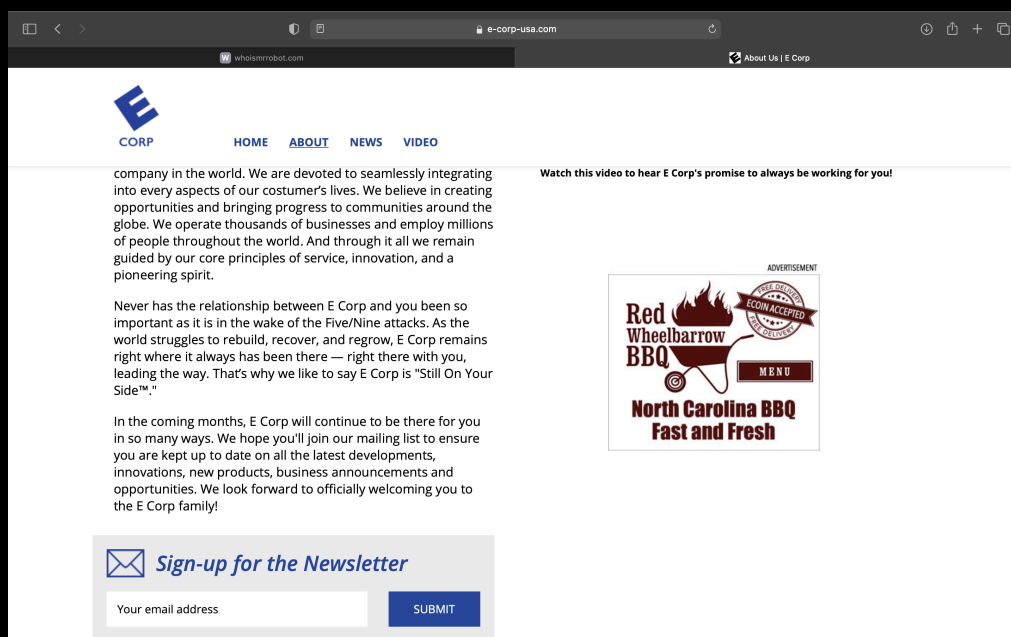

- Due to this challenge looking for a EvilCorp website, EC_NY would be the first connection to check.

- When clicking on this, a desktop pops up. Notice the E Corp icon, click on this.

5. On this page scroll down abit on the about page and notice there is an ad, this ad shows the Red Wheelbarrow which means the wheelbarrow color is RED.

6. Put RED in the brackets and click submit.

I was running through a maze and i couldn't escape it. Finally, at the end, I started to float above it. I decided to fly out of the maze, but the strange part was when I was high above it, the maze, it looked like a QR code. I drew it and put it here for this flag on purpose. Looks like its connections to systems I own, on one of the systems there's a way to get onto the EvilCorp website, look through the about page and the flag is the color of the wheelbarrow in the ad.

Syntax `EVILCORP_CTF{COLOROFWHEELBARROW}`
